

Tomorrow's Present

Bringing leadership training and peacemaking skills to central city youth

Based on the research of Dr. Lisa-Marie Calderone-Stewart, Tomorrow's Present provides experiences for teenagers that apply the principles of transformational ministry:

- Shared **LEADERSHIP** with a variety of creative processes that invite feedback from all levels, improve effective communication skills and result in wiser decision making.
- Teaching methods based on the **LEARNING** cycle, inclusive of diverse thinking to foster imaginative thinking and innovative problem solving.
- Deliberate **REFLECTION** and mindful expression of personal values leading to the alignment of those individual values with group action to bring about positive change.
- Integrity demonstrated by humility, an openness to critique and a dedication to **SERVICE** and peacemaking.
- Consistent **SUPPORT** from **mentors** to give direction and guidance, as well as from **peers** to give balance and perspective.

~~~~~  
*Teach us to teach and we will learn.  
Teach us to lead and we will serve.*
